## A FOREWORD

1. **LOCATION:** Louisburg is thirty miles northeast of Raleigh; an excellent highway makes the capital easily accessible for automobiles. It is also a terminus of a branch line of the S. A. L., which unites with the main line at Franklinton. It has a population of about three thousand, and is situated on rolling hills which furnish natural drainage. The town has a most excellent system of waterworks and sewage, and an electric light plant.

Louisburg College is located on the summit of the highest hill in the town, in a beautifully shaded grove of thirteen acres. Across the street, facing the College Campus, and a continuation of it, as it were, is the Louisburg Graded School Campus, another park of thirteen acres.

II. **HEALTHFULNESS:** The location of the College furnishes excellent natural drainage, and questions of sanitation are carefully looked after. An excellent trained nurse keeps the buildings under constant inspection, and the college physician makes frequent visits to the College and is ever ready to come on call. For years there has been no serious case of sickness among the students, and this is its own testimony to the healthfulness of the place.

III. **HOME LIFE:** Louisburg College imparts a home-like atmosphere not found among larger schools. The comradery between girls and teachers prevalent here could not exist where the ratio of girls to teachers is far in excess.

Girls of congenial taste and ages, when that is not inadvisable, are grouped into sections of nine girls each, and placed under the special supervision of a section-teacher, who becomes their adviser. She presides over their table in the dining-room, and acts as general counselor and treasurer for her section. This wholesome relationship brings a feeling of personal responsibility on the teacher's side, and causes the girls to regard

their section-teacher as a personal friend and confidante, who is interested in their peculiar needs and foibles.

IV. **THE PURPOSE:** The paramount purpose of Louisburg College is to develop the girl into a symmetrical woman. She is not merely an intellect to be cultivated; she is, above all else, a personality to be rightly developed. Her three-fold nature, body, mind and spirit, must be harmoniously developed in order to attain perfect womanhood. To this end she must be taught to appreciate health, and much that pertains to the care of the body; she must cultivate a happy disposition and appreciate its relation to her health; she must learn that nature is the Great Physician, and that exercise in the fresh air is the best tonic. The College strives to maintain an atmosphere conducive to the free exercise of the best faculties of mind and heart, in short, to cultivate the whole personality. That every girl who goes out from it may bear in her face the evidence of a strong body, a well-trained intellect and a pure heart, the essentials of a perfect woman, nobly planned, is the paramount purpose of the training given at Louisburg College.

## HISTORY

When the county of Franklin was formed in 1779 three commissioners were appointed to locate the county seat and provide for the needs of the town and county. They purchased one hundred acres at the "Fords of the Tar," and here has developed the town of Louisburg. These were wise men in that they at once made provision for the education of youth. On the elevation overlooking the "Fords" and surrounding country, twenty-six acres of land were reserved for school purposes. The principal street of the city now divides the lot into halves, one of which became the property of the city schools. The other was secured by the Louisburg Female College Corporation, now Louisburg College. In 1779 a suitable building was erected and "Franklin Academy for Males and Females" started on its career of usefulness under the guiding hand of Matthew Dickerson, the maternal uncle of David Dudley Field. The charter was granted in 1786, but a few years later it was thought

best to separate the male and female departments, and in 1802 the "Louisburg Female Seminary" was chartered and suitable buildings erected for the accommodation of girls only. In the more than one hundred years since Louisburg Female Seminary was chartered the school has had all the struggles incident to private and unendowed institutions, but at no time has its service to the commonwealth been small.

In 1855 the people of Louisburg realized that the Louisburg Female Seminary could not meet the demands of the time; that the time had arrived when young women should be given higher educational advantages. To meet this demand a joint stock company was organized and chartered by the Legislature under the name of the "Louisburg Female College Company," the object of which was to establish a college of high standard for young women. Two years later the new college opened as a private enterprise.

In 1891 the property came into the hands of the great-hearted Washington Duke, and was held by him for the education of North Carolina women during the remainder of his natural life. In 1907, on the death of Mr. Washington Duke, the property was given to the North Carolina Conference by his son, Mr. Benjamin Duke. In 1908 the college property was accepted by a Board of Trustees, acting under the authority of the Conference.

## BUILDINGS AND GROUNDS

### MAIN BUILDING

This building, erected in 1855, is placed on the highest point in the city, and is located just back of the center of the campus. Built of red brick, four stories high and fronted with massive columns, this building dominates the whole scheme of buildings and grounds. In it are the offices, parlors, social room and large dormitories. On December 5, 1928 this building was practically destroyed by fire, but is being rebuilt and will be ready for occupancy by September 1, 1929.

## DAVIS MEMORIAL BUILDING

This building was erected in 1911 as a memorial to Mr. M. S. Davis, who was for many years a leader in education in the State, and for some years president of the College. The infirmary is located in this building and some of the larger classrooms are here. It is one of the two buildings that form wings to the main building. All of these front on a magnificent oak grove of some ten acres. These century-old trees lend a peculiar dignity to the campus. The grassy lawns and winding paths contribute much to the pleasure of the students.

## WEST WING

This building was completed in 1924 to meet the ever growing needs of the College. The first floor contains the dining room, with a capacity of over 300 students. It is most modern in every respect. Complete new equipment has been installed and no expense spared to make this a pleasant, restful and attractive place. The second and third floors contain dormitory rooms, all newly equipped with single beds, dressers, etc. Each floor contains a modernly equipped bath room with showers, tubs, lavatories, etc. The fourth floor contains two large literary society rooms each equipped with stage, opera chairs, piano, etc. The two rooms are connected by folding doors which are opened on special occasions giving room for at least 300 people and making a very desirable meeting place for Y. W. C. A. and other organizations. On December 5, 1928 this building was practically destroyed by fire, but is being rebuilt and will be ready for occupancy by September 1, 1929.

## PATTIE JULIA WRIGHT MEMORIAL DORMITORY

This dormitory was completed in 1926. It is the gift of Mr. R. H. Wright of Durham, N. C., in memory of his sister, Pattie Julia Wright, a member of the class of 1868. It is constructed of red brick trimmed with stone. The building is heated by steam and lighted by electricity and has accommodations for 116 students. Each of the three floors has its own shower baths, lavatories and toilet accommodations. Each room accommodates two students and is equipped with single beds, steel dresser, two closets, etc. On the first floor are the parlor, the reception hall and the dean's office.

## FRANKLIN COUNTY MEMORIAL BUILDING

The people of Franklin County, desiring to show their appreciation of the College, which has been serving in their midst for one hundred and fifty years, subscribed \$150,000.00 for the erection of a Memorial building. It is a large, three story, brick building, trimmed with stone. It contains ten large classrooms; a library, including reading room, research room and stack room; and forty-four dormitory rooms, with accommodations for eighty-eight young women.

The building is heated by steam, lighted by electricity, and has the most modern bath and toilet accommodations.

## THE COLLEGE HOME

The design of the school is to surround the pupils with such influences as tend to cultivate taste, refine and polish manners, develop and strengthen the moral sense, and to fit them to occupy with ease and grace every department of social and domestic life.

Many great and noble women have gone forth from our walls, who, as wives, mothers or daughters, in homes of luxury or in more humble surroundings, have shed about them that lustre of goodness and true worth which appeared in the nobility of character inculcated here.

School life should be made pleasant and happy. Discontent, worry and homesickness are alike opposed to successful progress in educational training and the development of amiable and cheerful dispositions. A love of the good, the noble and true is inculcated. The teachers are the companions and advisers of the pupils; they seek to guide them to the highest ideals of Christian womanhood. The Christian grace gives to ladies a charm and power which no adornment of person or culture of intellect can produce.

The regulations of the School require that each student shall be lady-like and honorable in her conduct as long as she remains within its walls. Due respect at all times and under all circumstances must be paid to officers and teachers.

All college authorities have learned by experience that it is both necessary and prudent to have some well-defined rules for the protection and benefit of the students, and parents are requested not to give permission which conflicts with these regulations. Pupils come to college for work and improvement, and nothing should be permitted to interfere with their duties.

Their interest is the ruling consideration, and the minutest detail of every regulation is planned with reference to them. Here they are surrounded by a literary atmosphere, among companions engaged in the same pursuit, and any diversions not in harmony with our home life are injurious.

Non-resident students will be required to board in the College, unless they have relatives living in the town, with whom, for reasons of economy, they choose to board. If there should not be room in the College, the President reserves the right to select a suitable boarding place in town. It is unwise for parents to send permission to their daughters to make visits to friends or relatives in the country. As a rule, those students accomplish most who make and receive fewest visits. The choice of society within the institution itself is great, and all that can be desired. It is impossible for those outside of the College to judge as to the wisdom of such visits, as conditions sometimes exist of which they are unaware, that render absences detrimental, not only to the individual student, but to the student body. Contagious diseases are often brought into colleges in this way. Frequent trips home or visits from home, with their attendant excitement, do not contribute to the best interest of pupils. We bring this matter to the attention of parents because we believe that they have the best interest of their daughters at heart, and would not wilfully do anything that would hinder their school work or endanger their health.

#### OUTFIT

Teachers and pupils furnish their own towels, blankets, bed-clothing and table napkins. Each one should also bring one pair of window curtains  $2\frac{1}{2}$  yards long. The name of the owner

must be marked on all articles of clothing and linen that are to be washed. Students should bring a teaspoon, knife and fork and drinking glass for use in their rooms, as these articles cannot be taken from the dining room.

### PROMOTION OF HEALTH

For the proper care of any who may be sick, a large, bright, sunny room has been set apart for an infirmary. It is under the supervision of a trained nurse. She endeavors to prevent the development of slight indisposition into serious illness; to correct by careful treatment any tendency toward chronic disease; to win the pupils to good bodily habits, and to instruct them in the laws of health. Prospective students should have a thorough examination by family physician before leaving home for school, especially as to tonsils, eyes and throat. All dentistry should also be attended to. Should a student become so sick as to need the services of a physician, her parents will be promptly notified by the President, who will write regularly every day until the patient is better. Parents need not be anxious about their daughters, unless they have heard from us that they are sick. In no case will we fail to notify them.

### RELIGIOUS ADVANTAGES

Since in the training of youthful minds there is no phase of education which is of more importance than the spiritual side, every effort is made to surround the student with proper moral and spiritual atmosphere.

Rev. Daniel Lane, pastor of the Methodist Episcopal Church, South, of Louisburg, is the College pastor. In addition to his regular pastoral visits he meets occasionally with the faculty and students in their regular morning exercises, and in special prayer services. He is always glad to be consulted by any member of the College community on religious subjects.

On the opening day the ministers from the various churches of the town extend a most cordial welcome to the students, and during their residence here every effort is made to have them feel at home in the churches.

Students are required to attend church and Sunday school once each Sunday. Missionary activities are especially encouraged, and all narrowness of religious ideas is discountenanced. Mission Study Classes and a Young Woman's Christian Association are separate organizations and are discussed elsewhere.

### LIBRARY

The library contains over three thousand volumes selected for school purposes and general educational value. This is open to the students and work is assigned for the purpose of developing a wider interest in the best literature, and knowledge in research work. A policy of constant enlargement of the library is pursued. It is a government depository and in this way many valuable volumes are added each year.

### READING ROOM

The reading room is a large, airy room, comfortably furnished and is open all day. Here the girls find the leading state and national papers and the periodicals of the church. A large number of the best magazines are on the tables. This list is constantly being revised with a view to the best literature and the sanest presentation of current problems.

### STUDENT PUBLICATIONS

#### COLLEGE ANNUAL

The Senior class publishes the college annual, called The Oak. This is the student's "memory book," preserving in an attractive and durable form scenes of her college days; snapshots of faculty and students at work and at play; records of college events and "stunts"; a history of the college year.

### THE INFIRMARY

The Infirmary is located on the second floor of the Davis Memorial Building. It is well equipped with modern furniture and fixtures and has connecting bath. A registered nurse is in charge and the services of the college physician are available at all times. Should the physician require the services of an additional nurse the parents must bear the expense.

# Student Organizations

---

## STUDENT GOVERNMENT

In order that the students of Louisburg College may have opportunity for a larger development in learning the social qualities of self-control, and individual responsibility to the community, the President and faculty extended to them during the years 1918-19 self-government in their dormitory life. For this purpose Student Government came into being. Through this organization the students regulate and control all matters relating to dormitory life.

The President of the College, the Deans, and two members of the faculty act as an advisory board and assist the students, when called upon in regulating any matter found to be unusually difficult of adjustment. The Deans watch over the general welfare of the students, stimulating them to higher ideals of conduct and gentle manners, and give advice when needed. The Deans regulate all off-campus permissions.

### LITERARY SOCIETIES

Two literary societies, the Sea Gift Literary Society and the Neithean Literary Society, are maintained and directed by the students. In the management of these societies an opportunity is afforded for the development of literary taste, powers of leadership, and knowledge and use of parliamentary law. Meetings are held twice a month and programs rendered.

At the invitation of these societies, lectures of literary, scientific, historical and religious interest are given.

### YOUNG WOMEN'S CHRISTIAN ASSOCIATION

The Young Women's Christian Association is an important organization in the religious and spiritual development of the students of the institution. The main object of the Association is to develop a personal interest in work for Christ—a sense of responsibility in the opportunity for service open to them—and to train young women for Christian leadership. At the same time the social side of the student life is not neglected. The work of the organization is managed by the students assisted by an advisory committee consisting of faculty members.

Services conducted by students or members of the faculty and under the direction of the Association are held on Sunday evenings. Voluntary Mission Study Classes, led by students interested in this phase of life, give vigor and enthusiasm to the missionary division of the organization.

Delegates are sent each year to the Student Conference of the Young Women's Christian Association, at Blue Ridge, North Carolina.

## LOAN FUNDS

## THE PATTIE JULIA WRIGHT MEMORIAL FUND

In the spring of 1921 Mr. R. H. Wright, of Durham, N. C., made a subscription of \$10,000 to Louisburg College in memory of his sister, Pattie Julia Wright, who graduated at this institution in 1868. In the fall of 1922 Mr. Wright gave an additional \$10,000, in 1924, \$30,000, and in 1926, \$50,000, making a total of \$100,000. In accordance with these subscriptions, invested funds of the par value of the above amount have been turned over to the College and the proceeds from this fund are used to assist worthy and needy girls to secure an education. Applicants for these scholarships must give satisfactory evidence to the administration that they are eligible under the above conditions.

The D. E. McKinne Loan Fund of \$2,000 was established by Mrs. Edgar L. Hart, of Wilmington, in memory of her father, Mr. D. E. McKinne, of Princeton.

The L. H. Joyner Loan Fund, amounting to \$75.00 each year, was established by the Rev. L. H. Joyner, of the North Carolina Conference, in 1922. The terms of the gift provide that if there be an applicant from Franklin County, such student shall have preference. The factors to be considered are scholarship, Christian character and Christian service.

The Mary Elizabeth Fund was established anonymously in 1923. The donor is increasing the amount monthly. The terms of the gift provide that the money shall be loaned at four per cent interest, to worthy students, members of the Senior or Junior Class.

The M. D. Stockton Fund, given by Mr. M. D. Stockton, of Richmond, Va., "to help worthy young women make their lives count in the Kingdom of Christ." Amount, \$750.00.

The Plymouth Fund was given by a group of people, members of the Plymouth Methodist Church, interested in the "Christian education of our Methodist young women." The fund when completed will amount to \$1,000.

The Morehead City Fund was provided by members of the Morehead City Methodist Church. When completed the fund will amount to over \$1,000. The chief factor to be considered in making loans is the "adaptability of the candidate for distinctive Christian work."

A total of fifteen or sixteen hours, exclusive of gymnasium, is regarded as the normal amount of work in the college department for each semester. In the college-preparatory (high school) department four units is regarded as the normal amount. Students whose point average to date is 2.00 or better may carry seventeen or eighteen hours in college and five units in the col-

lege preparatory department. A fee of \$10.00 is charged for each subject in excess of the normal amount.

### GRADES

The system of grading is based on the letters, A, B, C, D, E and F. The highest grade of scholarship is indicated by A, a conditional failure by E, and a failure which can not be removed except by repeating the course by F. To each of these grades, values in points are assigned.

For each hour or unit of A, three points.

For each hour or unit of B, two points.

For each hour or unit of C, one point.

For each hour or unit of D, E, and F, no point.

(A, 96-100; B, 90-95; C, 80-89; D, 70-79; E, 60-69; F, 60-).

Normal distribution of grades:

A, 5 per cent; B, 20 per cent; C, 40 per cent; D, 20 per cent; E and F, 15 per cent.

For college graduation, a student must have sixty semester hours and sixty points in addition to the required work in gymnasium. For high school graduation, the student must have sixteen units and sixteen points in addition to the required work in gymnasium.

### CREDITS

The credit assigned to a college-preparatory or high school course is expressed in units; a unit is the credit given for a subject pursued through a school year with no less than 120 sixty-minute periods of classroom work in the aggregate.

### SPECIALS AND PRIVILEGES

We realize that in some instances, where health or eyes may be impaired, it is not wise to allow a student to take the full course, but we have found that girls who have not sufficient work to keep them employed are disappointing to themselves and to their parents, and a disadvantage to the School. Youth means activity, and if your daughter is not engaged in self-improvement

she is nevertheless engaged in something. If parents and teachers fail to direct these energies they are laying up trouble for themselves.

We disapprove of heavy courses. Girls often labor under serious disadvantages by undertaking to enter a class for which they are not prepared, and consequently having to make up several back studies, in addition to the regular course. This is unwise; it not only discourages pupils, but rarely proves successful. Either course is unfortunate for a student, and places her at a disadvantage with her colleagues. If your daughter cannot take the full course, require her to pay special attention to music or art, in addition to required studies; these may be regarded as recreation—certainly not drudgery.

### EXAMINATIONS AND REPORTS

Examinations take place at the close of each half session, but there are frequent reviews of the class work. A daily record of each pupil's scholarship and deportment is kept, and the average of these, with the examinations, determines her standing in the class. A report is sent to the parent or guardian at the close of each semester. Parents and guardians are requested to examine this report, using it as a basis for admonition and encouragement.

When for any reason the pupil does not stand the examination with her class, or has to be re-examined, a fee of \$1.00 is charged for every examination so given, except in cases of illness. In that event a statement to that effect from the College physician or nurse is required.

### TEACHERS' CERTIFICATES

The North Carolina State Board of Education grants graduates of Louisburg College who have completed the Teachers' Course, a Grammar Grade or a Primary Certificate (Class C). Students desiring to teach will find this a desirable way to secure a Teachers' Certificate and at the same time secure

full credit for all college courses taken, should they later decide to work for a degree.

Upon completion of the work outlined for the first year of the Teachers' Course, the student is entitled to receive an Elementary A Certificate.

### REQUIREMENTS FOR GRADUATION

A candidate for graduation not only must have completed the prescribed course, but also must have a commendable record of character, deportment and judgment. No pupil is graduated with less than a year's attendance.

A diploma from Louisburg College is conferred upon the student who has completed fifteen secondary school units for entrance and sixty semester hours of college work.

## THE ACADEMY

The Academy is a department preparatory to the College. Its courses of study cover the last two years of standard high school work. Students coming from an accredited high school with eight units are admitted to the Freshman classes. Those with twelve units are admitted to Sophomore classes.

Sixteen units of work are required for graduation. A diploma is given upon the completion of the course as outlined. This diploma will admit students without examination to all colleges and universities that receive students on certificates.

The Academy affords opportunity for those who have not had four years' accredited high school work to prepare for college. There is an advantage in taking high school work in this way, for, while the student can not be classed as a college student, she has the advantage of living in the college community, and of having a part in the college life. It also affords opportunity to those who, while pursuing their high school work, desire to take courses in Art, Expression, Music, Business or Home Economics.

### REQUIREMENTS FOR GRADUATION

- English. 4 units.
- Mathematics. 2 units.
- History. 2 units.
- Science. 1 unit.
- Foreign Languages. 2 units.
- Electives. 5 units.

The Electives must be selected from the list of subjects given on page 22. Students should select such subjects as will enable them to meet the college entrance requirements for the College Course they plan to take.

Students planning to take a Home Economics or other Vocational Course in College may substitute vocational subjects for the Foreign Language requirements.

Louisburg College offers two regular courses; the General Course and the Teachers' Course.

The General Course is designed for those who wish to secure a college degree. When the student registers she should advise the Classification Committee as to the university she expects to attend after graduation here, so that the subjects taken at Louisburg College will be those required by that institution for the freshman and sophomore years.

The Teachers' Course is designed for those who expect to teach upon graduation. The completion of this course entitles the student to a Grammar Grade or a Primary Certificate (Class C). Full credit will be given for all college courses taken, in case the student later desires to work for a degree in a four year college or university.

#### PHYSICAL EDUCATION

MISS MITCHELL.....	<i>Physical Director</i>
S. P. BURT, M. D.....	<i>College Physician</i>
MISS SUGG.....	<i>College Nurse</i>

Modern education recognizes the necessity of physical fitness of the individual to meet the requirements of life. The habit of "keeping fit" cannot be formed too early, or be too strongly instilled.

The average girl who enters college is generally below normal in strength and muscular control. The majority have some physical deformities, such as round shoulders, drooping head, etc. In only a few may be seen the ease and grace of movement, combined with vigor, that is the result of training for muscular nervous coördination.

The effects which the department of physical training seeks to obtain by the prescribed courses are: (1) Health, through organic strength and control; (2) correction of physical (drooping head, round shoulders, spinal curvature) and physiological (circulation, respiration, etc.) defects; (3) training of the individual to act as a social unit through the medium of group

drills and exercises; (4) poise of body and grace of movement through muscular and nervous control; (5) body relaxation and reaction from mental pursuits.

Each girl on entering college is given a careful medical examination by the college physician, and general facts concerning her health and hereditary tendencies are solicited.

All students are required to take some exercise in the open air every day weather permits—either games or walking.

The work in physical training is divided into two groups of courses. Practice work includes:

1. Swedish and Danish Gymnastics. Comprising systematic and progressive exercises. Twice a week, beginning the second week in October and lasting through two weeks in April. Each girl is required to take this course unless excused by the physician.

2. Games. Gymnastic games, such as cornerball, tag games, races, centerball, relay races and folk games.

3. Outdoor Sports. Tennis, basketball, baseball, volleyball, horseshoes, and self-testing activities. Inter-class games are held annually because an opportunity to represent a class in athletic games is of social and moral value. This course is open to every girl in college and all are encouraged to take part. All sports and games are carefully supervised.

#### PLAYS AND GAMES

4. Plays and Games. A course for use in the public school is offered prospective teachers. Games with the elements of fleeing, dodging, running, throwing, and various tag games, are included; also singing games, action songs, story plays and games adapted to school room, school yard, play grounds and gymnasiums. Notebook.

The year. Two hours.

Texts: Bancroft, La Salle, Staley and Bowen and Mitchell.

Gymnasium Suits. All students are required to have a pair of black gymnasium bloomers and gymnasium or tennis shoes. Students are required to secure their bloomers here to secure uniformity. They can be secured for \$1.00 per pair.

Theory of Physical Education comprises:

1. The Laws of Health. This course treats of the physiological bases of physical activities; also the usual problems of community health and child welfare.

Text: *The Laws of Health and How to Teach Them*, by Winslow.

2. The Administration of Physical Education. This course develops the organization of materials for physical activities.

Text: *The Administration of Physical Education*, by Williams.

3. Programs for Teaching. This course presents the working out of the lesson in physical training, in drill and in practice teaching.

The theory classes meet three hours a week. The work in theory calls for the keeping of a note book.

Credit for Theory of Education, 3 hours.

4. Hygiene and Health. This course comprises a brief review of physiology, the study of the causes and modes of transmission of the more common diseases, and the study of the disease resisting mechanism of the body. Notebook required.

First Semester. Two hours.

#### CERTIFICATE IN PHYSICAL EDUCATION

A certificate in Physical Education will be given on completion of the full course in both practice and theory of physical education, and also completion of twelve hours of college work as follows: English, six hours; Electives, six hours.

## HOME ECONOMICS

MISS MADDUX

The purpose of this department is two-fold: (1) to give the student, who plans to teach Home Economics, two years of specialized training that will prepare her for the advanced work in the four year college or university and enable her to secure her degree in two more years; (2) to give a two years' course of the maximum practical value to the student who does not plan to take additional work. This course is designed for the training of the student in the efficient planning and care of the home in all its activities.

## Department of Fine Arts

---

“Talent is largely a matter of awakened emotion.” Therefore our courses of study are arranged for girls who have no talent, but who need the cultural awakening, as well as for those who have already manifested artistic ability and taste. With proper training, perseverance and diligent practice, it is within the power of anyone to become a fairly proficient pianist.

There are few who may after patient and intelligent instruction, learn to sing and play so that they may at least give pleasure in the home. The young woman who does not make use of music as a means toward attractive home-making will miss one of the strongest allies in breaking the monotony of the years and in bringing domestic happiness.

The reproduction of the beauties of nature is within the scope of anyone’s ability whose hand and eye have been adequately trained.

Thus it may seem that there is not a need for a remarkable talent, but rather the recognition of the necessity of sustained effort and determination in the pursuit of æsthetic and cultural fundamentals.

### SCHOOL OF MUSIC

MRS. A. W. MOHN, *Director*

#### PIANOFORTE

MISS CRENSHAW

MISS FONTANNA

In our Music Department it is intended to accentuate the study of music itself. Accurate reading, technique, expression, thoughtful interpretation of the hidden meanings of composers—all these are points upon which the instructors lay stress.

Culture demands an appreciation of the best in the world of music as well as that in literature; therefore we urge that all pupils study music in some form, if only to make sympathetic and intelligent listeners.

We have excellent pianos, there are plenty of them, and they are kept in first-class condition. Practice is supervised by a competent instructor.

Monthly student recitals will be held. At stated intervals there will be public recitals, and all students in the school of music must play at least once in each.

Students' recitals will be given frequently during the year, and in order to secure a Certificate or Diploma a public recital must be creditably rendered.

The time required to complete the courses of study will depend upon the ability and application of each student.

## VOICE

MRS. MOHN

Voice training is one of the special features of the College, and instruction is given both by private lessons and in limited classes. The director of this department will gladly test all voices when desired, and frankly state the capabilities of each. It may be stated that even a majority of those who have previously evinced no vocal talent may become very pleasing singers after studying with the best instruction—a result, however, which ordinary instruction does not produce in a majority of even the most talented. Voice training not only trains to

sing, but it gives the whole body poise; makes the speaking voice clear and resonant, aids enunciation, and tends to give the student self-confidence and ease in manners.

Careful attention is paid to the proper placing of the voice, correct use of the breath, attack, legato, phrasing and pronunciation; and much time is given to teaching of expression and interpretation and proper appreciation of the best works of the old masters and modern song writers. Original exercises for development of breath control, resonance and relaxation are given. All effort is concentrated on the real development of the voice, by such judicious selections as are adapted to individual needs.

\*Students who are able to play at sight pianoforte accompaniments corresponding in difficulty to those found in standard school music material, may upon passing a satisfactory entrance examination be exempted from further study.

Those students who show keen musical ability are advised to study an orchestral instrument at least one year.

In the Methods Course we aim to give not only preparation in class procedure, but an opportunity for observation practice teaching and conducting of chorus and orchestra.

Students not enrolled in the music department, but who are planning to receive a Teacher's Certificate in literary work are strongly urged to take Methods I, owing to the growing demand in our Public School system for teachers equipped in this work.

The student's best ideals are stimulated and there is development of the special powers and possibilities. Nothing in all our work so quickly gives ease, poise and sympathy with others, and banishes mannerisms, affectation, self-consciousness and stiffness. Particular attention is given to tracing faults of speech to their causes and an elimination of these by proper training.

#### GENERAL INFORMATION

A preparatory course in Expression is given to local students who are classified below the College Preparatory Department, as it is not usually practicable for them to undertake to do the regular work of the Freshman year in Expression as outlined in the prescribed courses of study.

Once a week all students of the Department of Expression meet for class work. In this way each girl reaps the benefit of work together and gets inspiration from what others are attempting. Every student of Expression is also a member of the Dramatic Club, which fosters interests in the study of the drama. The Club presents a series of indoor and outdoor plays during the year. Every student is required to appear on recital at least twice during the year.

#### READING AND GENERAL CULTURE CLASS

This class is open to all students at a nominal fee (see terms and expenses). Its purpose is to train the student to interpret and read aloud intelligently the printed page, to emphasize accuracy of enunciation and articulation, to develop a pleasant voice and graceful bearing, to overcome timidity and self-consciousness, and to stimulate an appreciation of the best in literature and life.

## Art

MISS SHEEK

The purpose of the Art Department is to increase the serious and thorough study of art. Artistic perfection may be accomplished by giving the pupils opportunities to acquire the habit of choosing wisely rather than by giving knowledge of abstract art principles.

It is earnestly desired that all pupils take the regular course, but a course has been arranged for those who wish to take work as a means of general culture and pleasure.

Souvenirs of holidays and college entertainments are designed and executed by the class.

Finished work will be under the control of the instructor until the close of the academic year, when it will be exhibited.

The regular course in the School of Art will cover four years, but a student is not held back until the end of the year if her work warrants promotion beforehand.

1. Drawing. The student to be successful in any form of Art expression must learn to draw. All drawing is taught directly from the model unhampered by theories and geometric precepts.

Composition. The student is taught to understand the use of line, mass and color.

Still Life Painting. In this course detail can be studied at leisure and confidence gained for the more intricate study of life and expression. A thorough study of light, value and color is made.

The year. One-half unit.

2. Drawing, painting and composition from still life, animals, flowers and landscape.

Original designing, Poster and Advertising Design.

Decorative Arts and Crafts.

The year. One-half unit.

3. Antique Drawing from casts, head and full figure.

Clay modeling, generally in the round from the head and the full length figure.

## COMMERCIAL ART

The subjects of poster advertising, illustration, commercial design and costume illustration have much in common though distinctive characteristics separate each from the others. The present tendency is to group these four as one profession called "Advertising Illustration." This has come about gradually as each of these subjects has been forced to accommodate itself to the rapidly growing demand for "art work" in all fields in which one has an idea to sell. The advertising value and the problem of reproduction are fundamental in all branches of this subject.

## OUTLINE OF COURSES

*First Year.* The first year aims to establish the connection between an idea to be sold and the symbols with which the idea may be expressed in pictorial form, such as colour, illustration, lettering, layout, etc.

Free-hand and mechanical drawing and colour are taught as they are needed to express each new idea. Salable trade objects are studied, and simple principles of reproduction are applied. Lettering is systematically taught and practiced from the beginning.

*Second Year.* The second year gives a fuller development of each phase of work begun the first year, but as the student is less hampered through lack of knowledge and technique, more attention can be given to the various phases of design as they relate to the advertising idea with their professional limitations. You will also study processes of reproduction, principles of advertising, photography as applied to art, Ben Day and colour processes. Particular attention is given to painting, pen and ink, and other forms of technique for reproduction.

# School of Business

---

MISS COVINGTON

MRS. WOODWARD

One of the uses of an education is to enable its possessor to make a living. In this day of increasing economic independence of women, business training is of growing importance. Those who find it necessary to support themselves or to prepare themselves for the conduct of business affairs in the home or in the community will find the work offered in this department of great practical benefit.

Two courses are offered, upon the completion of which diplomas are given—the Secretarial Course and the Bookkeeping Course.

## Description of Courses

### SECRETARIAL COURSE

The mastery of shorthand is a very valuable accomplishment. A thorough knowledge of this subject gives an excellent training to the mind and enables one to earn a good living. There is always a good demand for competent stenographers. Many have made Shorthand a stepping stone to a successful career.

The aim of this department is to furnish a thorough and wholly practical course of training for stenographic work, thereby insuring to each student that skill which is required by the business public. We consider the matter of instruction from the viewpoint of an employer; our work is therefore practical, thorough and interesting, and the results insure ready employment for every graduate.

This course includes Shorthand, Touch Typewriting, Business English, Spelling, Business Penmanship, Rapid Calculation, Office Training, and Business Letter Writing.

## GREGG SHORTHAND

We make a specialty of teaching Gregg Shorthand because we believe it to be the best. This system is one that has had a growth unprecedented in shorthand history. Although Gregg Shorthand was more recently published than any of the other practical systems in use today, it is taught in a larger number of public and private schools in the United States than any other three systems combined.

## TOUCH TYPEWRITING

Touch typewriting is a term used to describe the operating of a typewriter without looking at the keys. The operator reads the shorthand notes or copy and strikes the keys simultaneously, thus saving time that would be lost in glancing from the copy to the keys and back again. But to accomplish this the brain and fingers must be trained scientifically.

Every typewriting lesson is carefully corrected and returned to the student who is required to turn out neat work, with proper arrangement of copy, correct spelling and punctuation, and without erasures.

It is by having a high standard of requirements that we are able to turn out stenographers whose services are in demand.

## APPLIED BUSINESS ENGLISH

Your success in securing a desirable position, so that you can perform your duties in a satisfactory manner, will be due to your command and use of the English language. Business men now lay so much stress upon the importance of this subject that it is as much of a requirement as either shorthand or typewriting—it is an indispensable part of the stenographer's technical equipment.

Students deficient in this subject, either on account of neglected early education, or because they have never really understood the technicalities of "grammar" as usually taught, can acquire a thorough knowledge of the essentials of English.

## OFFICE TRAINING

The objects of this course are: to develop and perfect the secretarial student's ability as a shorthand writer and typist, to broaden her knowledge of business procedure, and to provide sufficient practice in the laboratory work in solving definite secretarial problems, so as to add definitely to the student's equipment as an effective business worker.

## BUSINESS LETTER WRITING

In this course those features of grammar and rhetoric which are essential to the expression of thought in a precise and business-like style are emphasized, to the end that the student shall be assured a practical and usable knowledge of the best forms of business English. So, too, the elegant and courteous forms of expression adopted for conventional use in society receive due consideration. The object of this course is to enable the writer to present his thoughts effectively to the mind of the reader.

## SPELLING

Every student is drilled daily in spelling. To know the meaning and proper pronunciation of words and to spell them correctly is an essential of a stenographer's equipment. For this reason special attention is given to this most important subject.

## BOOKKEEPING COURSE

The Bookkeeping Course is a pre-eminently practical and interesting one, and should be studied by every person, no matter what the vocation may be. All have great need of at least the first step in this department of learning, and it is manifestly absurd to attempt a business career without a thorough knowledge of the subject.

In our school the student progresses by gradual and easy steps from the simplest work to a perfect understanding of the elements of higher accounting, corporation work and banking.

This course includes Bookkeeping, English, Penmanship, Spelling, Arithmetic, Rapid Calculation, Commercial Law, and Business Letter Writing.

#### BOOKKEEPING AND BANKING

On the first day the student enters our school she begins the regular work of bookkeeper, and continues with it exactly in the same manner that she would upon accepting a position in any store, but under the careful direction of a teacher.

At the conclusion of what represents a month's business, students are carefully taught to post, to check back their work, to make a trial balance and balance sheet, and to close the ledger.

The course also gives the student a thorough drill in handling sets of books adapted to special lines of business: Retail, wholesale, commission, manufacturing, introducing partnership and corporation accounting. The course is completed with a modern banking set, in which the student handles all the different books of a bank.

#### COMMERCIAL LAW

A knowledge of this subject is important to all, since every business transaction, however, trivial it may seem, is based upon important legal principles. A knowledge of the subjects greatly aids the individual in so managing his affairs as to avoid the expense and annoyance of litigation. The object of the text used is to state as concisely and clearly as possible the leading and fundamental principles of business law.

#### PENMANSHIP

No subject in the Bookkeeping Course takes precedence over penmanship in importance. Other things being equal, the best penman is always sure to get first chance in a business office. It is of the utmost importance that students should make good in this subject.

Our school is particularly well fitted to give instruction in penmanship.

## ARITHMETIC AND RAPID CALCULATION

Rapidity in handling figures is an essential in bookkeeping work. Special drills are given in the subjects which necessarily form a large part of the bookkeeper's work, particular attention being given to speed work and short methods of obtaining results.

## ADVANCED COURSES

Upon the successful completion of the Bookkeeping Course students may enroll in one or more of the special advanced courses. These special courses seek to prepare students for a particular work, such as Banking, Accounting, etc., by giving specific training for that work. Among the advanced courses may be mentioned the following:

Advanced Banking and Accounting.

Higher Accounting.

Automobile Accessories.

Cost Accounting.

Others as demanded.

## REQUIREMENTS FOR A DIPLOMA

1. Completion of course as outlined.
2. A high school diploma or its equivalent.

## General Remarks

---

1. No boarding student will be allowed to spend the night out of the College, except with parents.

2. Permissions conflicting with College regulations can not be granted.

3. Parents will greatly aid us in our efforts to promote the health of their daughters if they will heed our earnest request that no eatables, except fruit or confections, be sent to those committed to our care. A large proportion of the little sickness we have among our students is traceable to imprudent eating at improper times.

4. Trunks and baggage should have the name of the owner attached to insure safe delivery.

5. When in case of sudden emergency, pupils are called home, instruction should be sent, not to the pupils, but to the President, who will make ample provisions to meet the case.

6. Some parents do their children and the school an injustice by calling them home before the closing exercises of the session. As soon as such permission reaches the student, she is not only inclined to neglect her own studies, but becomes a disturbing element in the school. When a pupil leaves before the end of the term, an unfavorable impression is made as to the cause of her leaving.

7. Students will be held accountable for any damage done by them to furniture, musical instruments, fixtures, or buildings.

8. Reference to the calendar will show that ample time is given for the Christmas holidays to meet all reasonable desires in this matter. Going away before the appointed time tends to deplete the classes, causes confusion in the household, and creates a spirit of restlessness among the other students, hurtful to all. It is equally important that pupils return in time for beginning work promptly on the date fixed for the reopening, as those

who are late lose the instruction already given and are sometimes overworked trying to make up deficiencies. The faculty cannot suspend the rule which requires each teacher to give zero to absentees who fail to attend recitations without excuse approved by the President. This regulation applies to all students of the College. This question is of such vital interest to the institution that a fine of \$1.00 for each recitation missed will be imposed, and the work missed made up under the supervision of the instructor.

Students who give diligent attention to their studies find little time for correspondence. It is therefore advisable for parents to recommend that their daughters should limit their correspondence to their home circle. Parents can do more toward controlling this than school authorities. Daughters, as a rule will respect the earnest request of their parents.

## GENERAL

Special studies are allowed only with permission of parents and guardians. When begun, they must not be discontinued without payment to the close of the term.

The medical fee covers the charges for the services of the nurse and physician whenever needed, and for all common medicines dispensed from the Infirmary, but does not include special prescriptions. Our physician will endeavor not only to prevent sickness, but to keep all pupils in the best possible physical condition.

An early application is desirable in order to insure prompt completion of all preliminary arrangements. Students are assigned rooms in the order in which the applications are received. The application must be accompanied by a registration fee of \$5.00, which is necessary for reserving a room in the dormitories. This amount will be credited to the student's expenses for the first semester. Should the application be withdrawn by August 1, the fee will be refunded.

Daughters of ministers engaged in their regular work will be given free literary tuition.

We think it best that students be limited in pocket money. The College should not be responsible for personal extravagance.

The College will not be responsible for money or valuables left carelessly lying around. They should be deposited with the Business Manager.
